Group-A (Very Short Answer Type Question)

1. Answer any ten of the following: [1 × 10 = 10]

-
- i. An entrepreneur who introduces a new product or process into the market for the first time is called an _____ entrepreneur.
 - ii. _____ is the ability to generate new ideas by combining existing concepts in an unusual way.
 - iii. The process of identifying the amount of money required to start and sustain a business before it earns profit is called _____ estimation.
 - iv. What is 'venture capital'? Name one venture capital firm in India.
 - v. The theory that links entrepreneurship with an individual's desire to control their environment and overcome challenges is called _____ theory.
 - vi. What is the difference between a trading business and a manufacturing business? Give one example of each.
 - vii. _____ refers to the process of gathering, analysing, and interpreting information about a market to support business decisions.
 - iii. An entrepreneur who imitates an existing business idea and adapts it to a new context is called an _____ entrepreneur.
 - ix. The role of an auditor in a startup is to _____.
 - x. Point out any one source of business ideas that an entrepreneur can use when starting a new venture.
 - xi. What is 'disruptive innovation'? Give one real-world example.
 - xii. What is the meaning of 'angel investor'? How does it differ from a bank loan?
-

Group-B (Short Answer Type Question)Answer any three of the following: $[5 \times 3 = 15]$

-
2. Distinguish between entrepreneurship and intrapreneurship. What motivates an individual to become an entrepreneur? Explain in the context of McClelland's Need for Achievement theory. [5]
 3. What is innovation in entrepreneurship? State the key steps involved in the innovation process. How does technology assist an entrepreneur during the stages of innovation? [5]
 4. Define 'sources of finance' for a new business. Explain any two sources — one internal and one external — with their advantages and limitations. [5]
 5. Explain the concept of market research. Describe the process of market research and discuss how market sensing and market testing together help an entrepreneur validate a business idea. [5]
 6. Write short notes on any ONE of the following: (a) Role of a Mentor in entrepreneurship (b) Functions of an entrepreneur in resource mobilization [5]
-

Group-C (Long Answer Type Question)Answer any three of the following: $[15 \times 3 = 45]$

-
7. Explain the major theories of entrepreneurship — Economic Theory, Sociological Theory, and Psychological Theory. Which theory, in your opinion, best explains entrepreneurial behaviour in the Indian context? Also discuss the key entrepreneurial traits and functions that differentiate a successful entrepreneur from an ordinary businessperson. Give examples. [15]
 8. What do you understand by entrepreneurial motivation? Explain McClelland's Need for Achievement (n-Ach) Theory and its relationship with risk-taking behaviour. How does the level of risk tolerance vary across Innovative, Imitative, Fabian, and Drone types of entrepreneurs? Discuss with suitable examples. [15]
 9. What is creativity? Distinguish between creativity and innovation. Explain the importance and steps of the creative process in entrepreneurship. How does innovation move through its stages — from idea generation to commercialization? Discuss the role of technology in accelerating entrepreneurial innovation with two real-world examples. [15]

- 10.** What is a project feasibility report and why is it important before launching a business? Explain in detail the steps involved in its preparation. Discuss the sources of business ideas, input requirements, and the role of technical and marketing assistance in making a project viable. Give a suitable example of a feasibility report outline for a small healthcare startup. **[15]**
- 11.** Discuss the concept of resource mobilization in entrepreneurship. Explain the types of resources (Human, Capital, Entrepreneurial Tools) and how an entrepreneur selects and utilizes them. Describe the methods of estimating and meeting financial requirements (Debt vs. Equity). What is the role of accountants, lawyers, auditors, and board members? How does a mentor contribute to the long-term success of a new venture? **[15]**
